Warehousing and Packaging Facility Opening Ee-Jay Motor Transports, Inc.

We are pleased to announce the addition of an onsite Warehousing and Packaging facility at our St. Louis / East St. Louis bulk distribution terminal. New Services offered include: storage and transferring to/from Bulk Trucks, Railcars and Gaylord Boxes.

The new warehousing and packaging facility is currently under construction and expected to be operational by July 15, 2009. The addition truly makes Ee-Jay a full service bulk distribution terminal by adding Warehousing and Packaging to our existing 120 jumbo railcar spots, onsite maintenance, onsite modern two-bay drive thru trailer wash and onsite certified truck scale.

Additionally, Ee-Jay operates a fleet of Van Trailers to support the movement of Gaylord Boxes into and out of the Warehouse. Contact Marc Powers at 618-271-4414 x105 or at MarcP@ee-jay.com for a quote.

The warehousing and packaging of bulk resins and logistical support with our fleet of van trailers is nothing new to Ee-Jay. An offsite Warehouse and Packaging facility was operated for 5 years prior to the decision to build a customized facility onsite. Moving the operation onsite will enhance Ee-Jay's ability to provide its customers service that is unmatched in service and flexibility due to the fact that both bulk loads (Railcar/Self-loader) and package handling (Van/Gaylord) are performed at the same physical location which is staffed 24/7/365.

We invite you to visit our website at www.ee-jay.com for additional information about our company.
